Authority: Abu Dhabi Food Control Authority, UAE, Abu Dhabi

Address: B.O. Box 90939, UAE, Abu Dhabi

Dr. Abdulwahhab Al-Juboori earned his Ph.D. in Veterinary Preventive Medicine from Baghdad University in collaboration with National Institute for Physiological Sciences, Okasaki, Japan, 1990, after receiving M.Sc. in Veterinary Medicine and Therapeutics from Baghdad University in 1982 and Bachelor degree in Veterinary Medicine and Surgery at Baghdad University, 1979. From 1985 to 1996, I joined the College of Veterinary Medicine, Baghdad University as a University Professor. I was promoted to Associate Professor in the year 1993. I served as a veterinary consultant and supervisor of the International Camel Racing Truck in Al Wathba, United Arab Emirates, Abu Dhabi, 1997 to 2003. From 2003 to 2010, I worked a Head of Animal Wealth Department, Abu Dhabi Municipality/Agricultural Sector. Currently working as Veterinary Researcher, Research and Development Division, Development Sector, Abu Dhabi Food Control Authority.

I have attended various regional and International conferences and workshops. I have life member of the Scientific Committee of the International Congress of Mediterranean Federation of Health and Production of Ruminants, 2008 till now. I have also published about 61 scientific research papers in the regional and international journals and conferences. My main research interest has focused in the field of Internal Medicine and Infectious and/or Contagious diseases in camels. I have published two scientific books (Animal Diseases, 1989 and Camels: Its Diseases and Treatment, 2003). I have over 35 years experience in research, teaching and practical field experience in the management, diagnosis, treatment, surgery and control and prevention of all animal diseases, especially camels. Moreover, I gained advanced knowledge in his field through several national and international training programs and courses.
